

MONEY MATTERS!

INTRODUCTION

Financial literacy is the ability to understand how money works – the process of spending, earning and investing. Being financially literate enables learners to make sound financial decisions.

Learners begin by understanding what money is, what they can do with it and how to keep track of their expenses.

Learners exit this module with a basic understanding of how to earn, spend and manage money or any other resource better.

This module is a part of the "EXPLORE - COMMUNITIES AND CULTURES" series.

MODULE DETAILS

- **Series 6: Live - A Happy, Healthy and Responsible Life**
- **Module 1: Money Matters**
- **Student Accomplishment Level: 1**

Grade Group : 1-3 Number of Sessions: 8 Session Duration: 60 min

SESSION EXPERIENCE

1. **Tuning in:** Understand the module structure and goals. Learn the terminology and prerequisite concepts needed for this module.
2. **Counting Green:** Learn how to identify currency notes and coins of different denominations.
3. **Bunny Money:** Get to know how Bunny was able to spend and save money!
4. **Money grows on trees?** Learn how people make money through different jobs, allowances, gifts and good management of money.
5. **Rainy days are here:** Journey with Mr.Ant as he saves up for rainy days! Make a saving plan for yourself to last for a whole month.
6. **Lists:** Create a grocery shopping list for your family. Find out what is the cheapest alternative to each of the items on the list.
7. **Keep a Track 1:** Make a list of your allowances and expenses for a month, including future ones like buying toys, birthday presents. Use a virtual application to keep track!
8. **How did I do?:** Reflect on the learnings from the module: counting money in different currencies, ways to earn, spend and track money.

Learning Objectives:

Learners will:

1. Be able to count money of different currencies and perform basic conversions between currencies
2. Be able to describe ways in which money is earned, spent and saved.
3. Be able to keep track of income, expenditure and savings using a virtual application.
4. Follow instructions, think critically and solve problems.
5. Engage in active collaboration and communication.
